

one with one

same scale

species with species

1

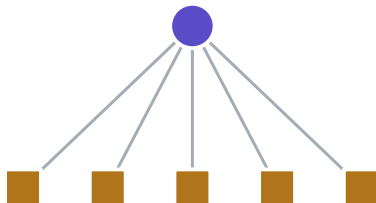

classical pairwise coevolution

fly and flower, predator and prey

one with many

2

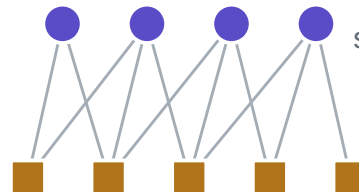

a species and its guild

one fly, twenty flowers

many with many

3

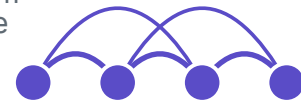

between two guilds

mutualistic networks

4

seen from
one side
→

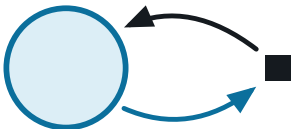

within one guild

diffuse competition

nested

a host with
its microbes

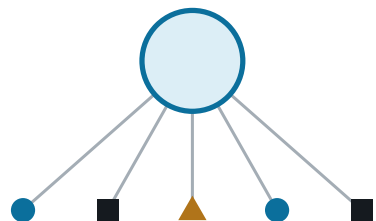

6

host and microbe

one symbiont

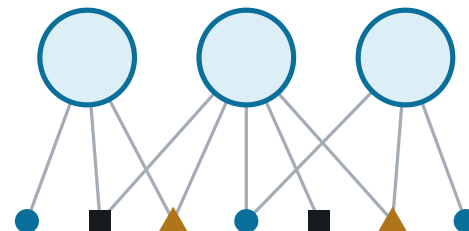

5

host and microbiome

one host, a community

7

hosts and microbiomes

many hosts, shared microbes
