

one with one

same scale

species with species

1

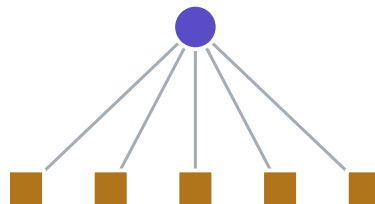

pairwise coevolution

fly and flower, host and parasite

one with many

2

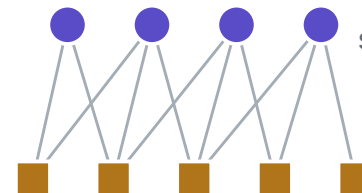

a species and its guild

one fly, twenty flowers

many with many

3

between two guilds

mutualistic networks

4

seen from
one side
→

within one guild

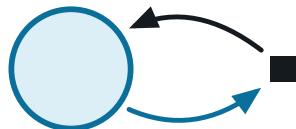

diffuse competition

between 4 and 5: the pair again, in space · then inference

nested

a host with its microbes

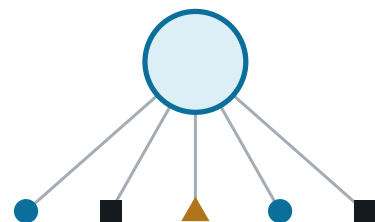

6

host and microbe

one symbiont

5

host and microbiome

one host, a community

7

hosts and microbiomes

many hosts, shared microbes
